

IDEA ● FORGE

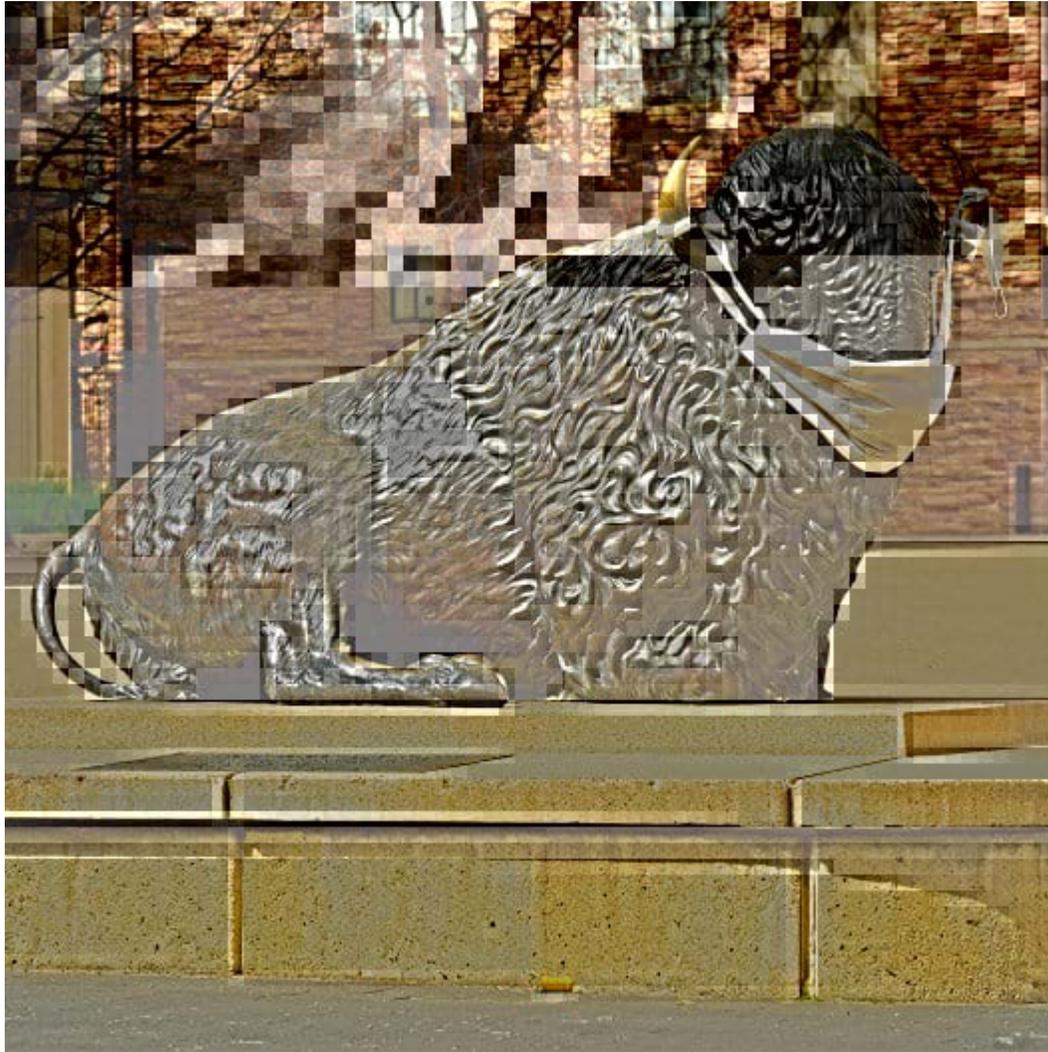

GROW AND BUILD YOUR IDEA

We are a *design* and *innovation* facility focused on workforce development.

We leverage formal learning, co-curricular learning, and connections with community and industry to *prepare students for the practice*.

This semester, we will be shifting our operations in the interest of safety and consistency.

- Virtual help hours and design reviews
- Online work order system for fabrication requests
- Limited capacity

Visit [Colorado.edu/ideaforge/fall-2020-operations](https://colorado.edu/ideaforge/fall-2020-operations) for more info

Daria Kotys-Schwartz
Director

Becky Komarek
Assistant Director

Shirley Chessman
ME Lab Engineer

Josh Colyer
Makerspace Engineer

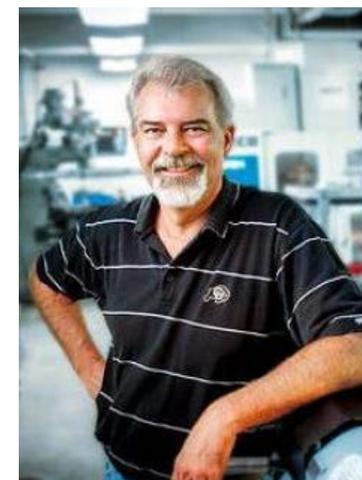

Victoria Lanaghan
*Program & Event
Coordinator*

Chase Logsdon
Manufacturing Engineer

Byron Rudisill
*Electronics & Fabrication
Engineer*

Greg Potts
Machine Shop Manager

Lauren Wheeler
Finance Coordinator

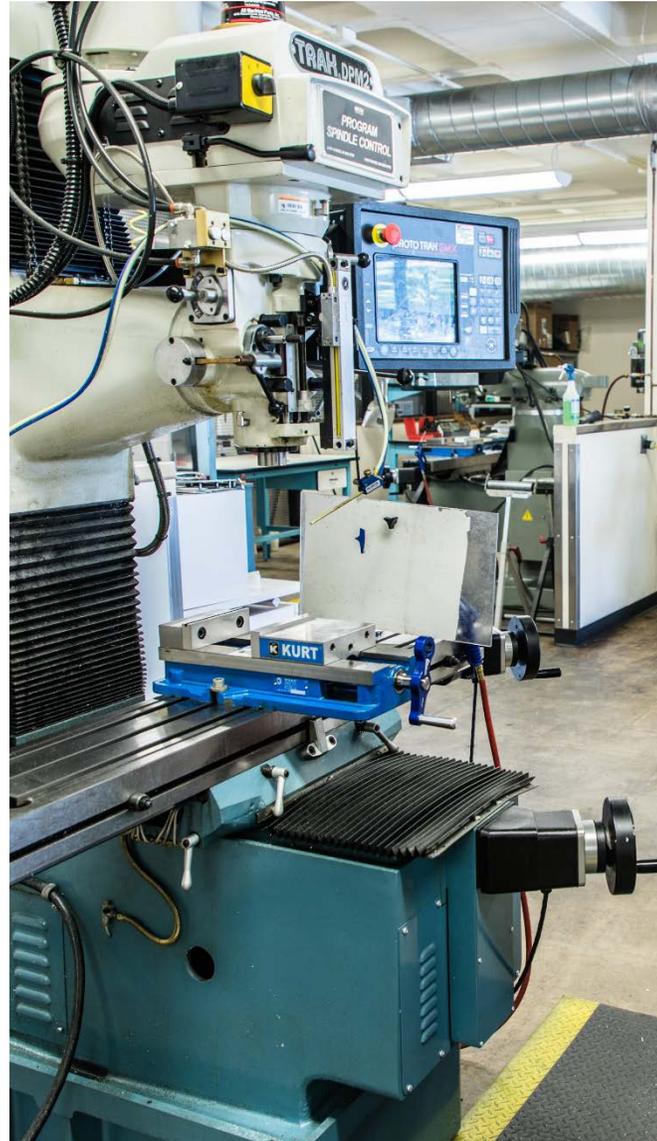

Available Resources:

3D Printing (FDM and SLA), Laser Cutting and Etching, 3D Scanning

Accessibility Requirement:

Students will submit their files and specifications through the Fabrication Request System. Staff will communicate progress and coordinate pick-up.

If students have questions, they may contact any one of the Electronics Shop staff for assistance (design or otherwise).

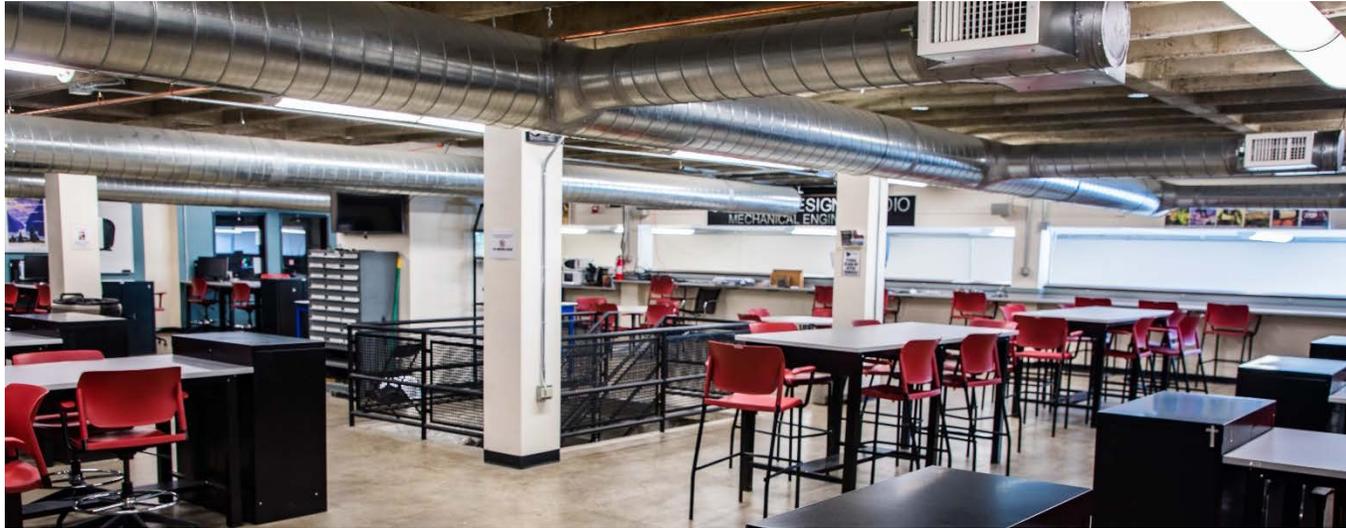

Available Resources:

Mills, Lathes, Abrasive Waterjet,
Tube Bending

Accessibility Requirement:

Students will first need to have a digital design consultation with Greg or Chase – these can be scheduled on the IF website.

Then they can create a new work order using the Fabrication Request System.

The Chevron Sr. Design Studio is closed to students this semester, unless special arrangements have been made

Equipment and hardware will be available for pick-up and drop-off
